PROFESSIONAL SUMMARY

Full-stack developer with 2–3 years of hands-on experience building production web applications using Python, Go, and React. Specialized in AI-integrated systems, distributed architectures, and full case-lifecycle platforms. Shipped 5 live products — including a civic-tech safety platform (Go + React + PostgreSQL), an AI job-matching engine, and a paid client landing funnel. Comfortable owning the entire stack: database design, API architecture, frontend, deployment, and post-launch support. Open to full-time and contract roles.

TECHNICAL SKILLS

Languages	Python, Go, JavaScript (ES2023), SQL, HTML/CSS, Bash
Frontend	React 19, Vite, Tailwind, modern CSS (Grid, Flexbox, custom properties), PWA
Backend	FastAPI, Gin, GORM, Node.js, REST, GraphQL, WebSockets, JWT auth
Databases	PostgreSQL (incl. PostGIS), Redis, SQLite
AI / ML	scikit-learn, PyTorch, Hugging Face, OpenRouter, model fine-tuning, RAG
DevOps	Docker, Docker Compose, Vercel, Render, GitHub Actions, CI/CD
Focus Areas	Distributed systems, API design, real-time systems, GIS
Spoken Languages	English (fluent), Idoma (native), Nigerian Pidgin (fluent)

EXPERIENCE

Freelance Full Stack Developer2023 — Present

Self-employed · Remote · Benue, Nigeria

- Designed and shipped **CommunityShield** — a civic-tech platform bridging rural Nigerian communities and local security units with Go, React 19, and PostgreSQL; owns full case lifecycle, GIS crime-index map, and audit trail.
- Built **DevCraft Career** — a CV builder + AI job matcher that scans private, government, and freelance listings and notifies users with direct apply links.
- Delivered a paid client project (**LeadClear Journal** landing page) — integrated Selar for payments and Systeme.io for lead funnel; client feedback: "exactly what I had in mind and even better."
- Developing **Plant Assistant** — an AI tool for small-scale farmers using offline-first PWA architecture and geolocation-based seasonal advisory.
- Collaborating on **My Creative Partner** — a 3D philosophical game where text/voice prompts generate real-time visualizations of user ideas.

Contract Stock Verification Officer2022

Port Harcourt Refinery · Contract · Rivers, Nigeria

- Conducted physical stock-taking of excess materials and reconciled counts against inventory records.
- Flagged discrepancies to site supervisors, contributing to inventory accuracy for refinery operations.

Software Developer (Self-Directed)

2022 — 2023

Personal Projects · Remote

- Built multiple full-stack web applications from concept through deployment.
- Implemented authentication, API integrations, and database design across projects.
- Developed AI-integrated prototypes using Streamlit and Python.

SELECTED PROJECTS

CommunityShield — github.com/asobuilds/communityshield-platform

Go 1.21 · Gin · GORM · React 19 · PostgreSQL · PostGIS · Redis · Docker · OpenRouter

- Full case lifecycle: signal → intake → triage → dispatch → investigation → audit → prevention
- GIS crime-index map, SOS alerts, role-based permissions across 4 user types
- Real-time WebSocket hub for live case updates and notifications

DevCraft Career — devcraft-career.vercel.app

React · Python · Job APIs · Vercel

- CV builder with template selection and certificate attachment
- Scheduled job scanner across private/government/freelance sources with match scoring
- Notification system delivering matched jobs with direct apply links

LeadClear Journal (Client Work) — leadclear-journal-landing.vercel.app

HTML/CSS/JS · Selar · Systeme.io · Vercel

- Conversion-focused landing page for a paid 30-day leadership journal
- Payment integration with Selar; lead capture wired to Systeme.io funnel

Plant Assistant — github.com/asobuilds/plant-assistant

Python · scikit-learn · Streamlit · PWA

- Offline-first plant identification with geolocation-based seasonal advisory
- AI chatbot for follow-up care questions; pesticide recommendations

My Creative Partner (Collaborative) — github.com/asobuilds/my-creative-partner

3D · AI · Voice Interface · Text Prompting

- 3D/4K/HD philosophical quest game with text and voice prompt interface
- Real-time 3D visualization pipeline for user-generated ideas

EDUCATION & TRAINING

B.A. Philosophy — Federal University Lafia

2018 — 2024

Learn@Earn Nigeria — Software Development Program

2022
